This is UNEVALUATED Information

THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE.
 THE APPRAISAL OF CONTENT IS TENTATIVE.
 (FOR KEY SEE REVERSE)

1. Approximately 300 workers are employed in the construction of a large plant on Grenadierow Street in the Brochow suburb of Warsaw. It is reported that the new plant, which is called "T 1" (T" representing the Polish word tajemnica-secret), is to produce fine mechanical parts and radio spare parts. 25X1
2. Plans for the construction of a new power station for Warsaw are being drawn up because of the insufficient power produced by the present two stations. The station in Pruszkow produces only 120,000 kw., the same as the old station on the Vistula. Although the Pruszkow station has a larger production capacity, it usually operates below capacity because of repairs.
